**RE: Enersol Flomar**

**To whom it may concern,**

The Royal Dublin Society is the largest event and exhibition centre in Ireland. We engaged Enersol Flomar to install their Savastat boiler optimisation controls across various boiler houses on our estate. We can confirm that we achieved savings of 18% and these were verified through detailed examination of our energy bills.

Enersol Flomar provided a prompt and efficient service, took into consideration our business activities when planning their installations and caused no disruption to any of our activities. We were very impressed with the quality of their aftercare and the detailed analysis provided to us to quantify the savings made.

We are delighted to recommend Enersol Flomar to any organisation interested in reducing their energy consumption.

Yours Sincerely,

A handwritten signature in blue ink, which appears to read 'Eddie McCarron', is positioned above the printed name.
